Dear

In order to help address the special needs of elementary school age students, the Northampton County Division of Mental Health/Early Intervention/Developmental Programs funds a service which offers short-term counseling and community referrals to students in our school. These services are provided at our building through the Valley Youth House Student Assistance Program, and there is no charge for them. In addition to individual counselling sessions with your child, communication between the mental health professional and parents is essential to identifying ways to best support your child both at school and at home.

Referrals come from our school teachers and guidance staff. Some of the goals for these counseling sessions include: increasing communication skills; promoting self-esteem; improving coping skills; and developing effective problem solving techniques.
